

Yellow Door Energy supports Jordan's renewable energy roadmap

For immediate distribution

The fully operating 5.5 megawatt-park solar park for Classic Fashion, one of the projects that receive financing from EBRD, DEG and GEF

Amman, Jordan, February 10, 2021: Yellow Door Energy, the leading sustainable energy provider for businesses in the Middle East, has recently announced it has signed US \$31.2 million in senior secured loans from EBRD, DEG and GEF ([link to previous press release](#)).

This loan supports the financing of eight wheeling solar parks for five private offtakers in Jordan with a combined capacity of 48.3 megawatts. Five of the solar parks are fully commissioned, grid connected, and operating. The remaining three solar parks are nearing the end of the construction phase and are expected to be commissioned shortly. Yellow Door Energy followed all protocols relating to the development of the solar parks and obtained all the necessary licenses, permits and approvals as required by law.

As a company with strong values and high ethical standards, we carry out our work with respect, honesty, transparency and in full accordance with the law.
